

AGS VIRTUAL CONFERENCE

JULY 26 -28, 2021

FUNDAMENTAL TRAINING

Covering the Fundamentals of Gloveboxes geared for the newcomer, including; Containment Theory, Glovebox Design, Fabrication, Operations, and Ergonomics.

FOCUSED TRAINING

Learn about materials used to fabricate glovebox components including shells, gloves, windows, and other appurtenances and the basis for their selection.

TECHNICAL SESSIONS

Technical sessions will include virtual presentations with Q&A covering a variety of topics including glovebox design, ergonomics, materials, fabrication, installation, operations, and lesson learned.

EXHIBITS & NETWORKING

Meet with exhibitors and network with colleagues in the AGS Exhibit Hall. Acquaint yourself with the latest technology, products and services, or just catch up with friends.

VIRTUAL INFORMATION

After careful deliberation, the AGS Board of Directors made the difficult decision to shift the AGS Conference to a virtual platform. Conference sessions will be held via Zoom webinar platform. We have scheduled dedicated time for attendees to network. In addition, we have a completely interactive exhibit hall so that you can meet with the vendors and catch up on the latest technology.
